BUSINESS AS USUAL

Executive time spent on low priority work

High overhead costs on sub-surface team

Lack of access to costly resources such as software

In-house team dealing with multiple tasks

Maintaining a highly qualified sub-surface team and industry leading software is costly

THE NEW PARIDGM...

TRADITIONAL

VS

FRACMOD

A higher utilization of the vehicle results in cost savings for the client

A higher utilization of the **resources** and **manpower** results in
cost saving for E&Ps

**You get the same value at a better cost due to higher
utilization of your resource**

FRACMOD ADVANTAGE

TRADITIONAL

FRACMOD

Executives focused on **strategic activities**

20-50% reduction in overhead costs

Higher cash flows using **industry leading tools and technology**

Insights from **multi-disciplinary team**

Adapt to the new paradigm by choosing FRACMOD

WHAT WE OFFER

KEY PLATFORMS

1. Available to be your in-house technical team
2. Industry leading technology at every stage
3. Combines resources, data analytics, and multidisciplinary expertise
4. International experience

DELIVERED THROUGH OUR THREE UNIQUE BUSINESS MODELS

1

FRACTAP

2

FRACWELL

3

FRACSTUDY

FRACMOD's platforms are to help clients improve production efficiencies, minimize costs, and deliver optimal solutions

1

FRACTAP: UNIQUE TEAM ON TAP MODEL

Business as Usual

Team on Tap

Executive

CEO, CFO

Support

IT, HR, Finance

**Sub-Surface
Team**

Senior Engineer

Senior Geologist

Engineer

Geo-Scientist

Junior Engineer

Junior Geologist

Consultant

Consultant

Consultant

Consultant

Senior Engineer

Senior Geologist

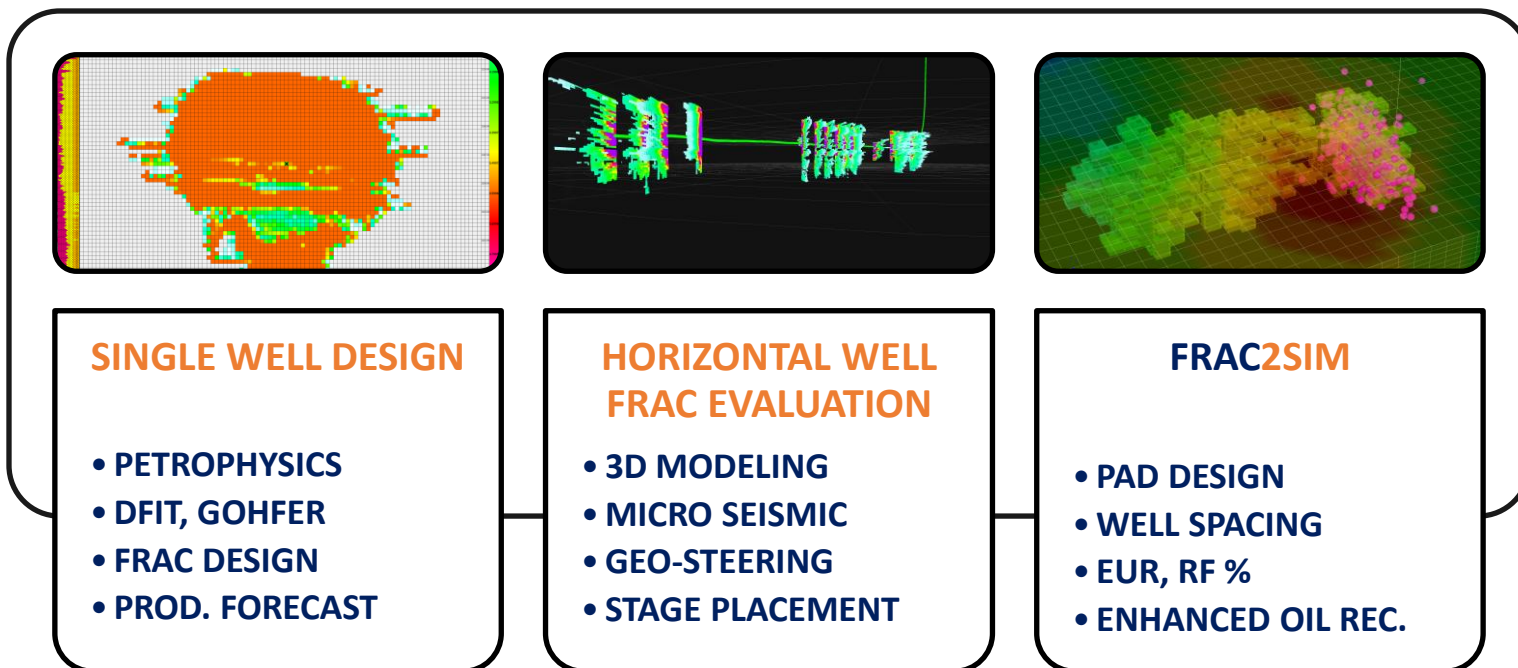

FRACMOD

FRACMOD offers you the flexibility to allocate 100 – 500 man-days as required

2

FRACWELL

FRACWELL optimizes your existing wells and evaluates your up-coming drilling program

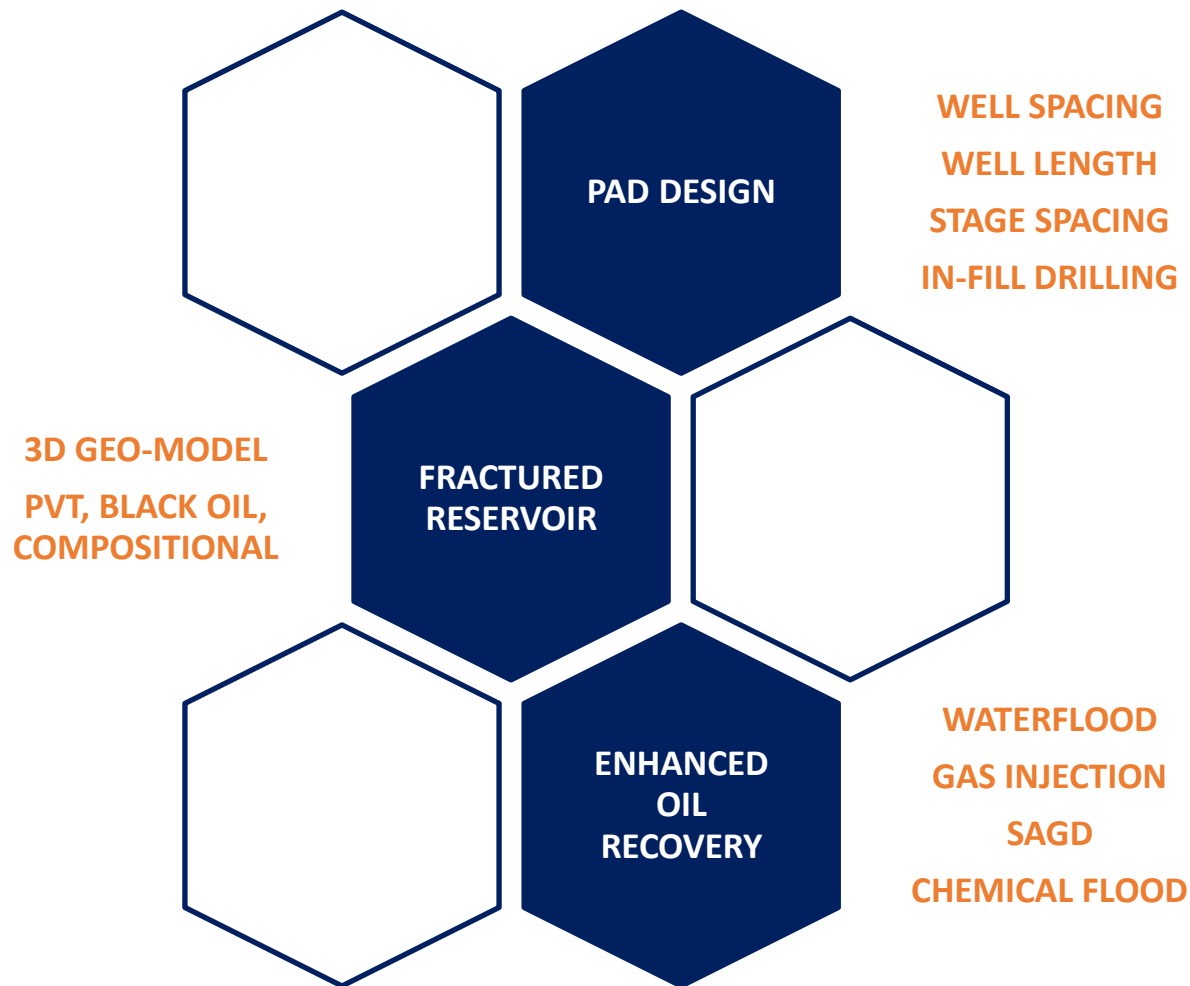

The FRACWELL platform ensures value-driven decisions are made

3

FRACSTUDY

FRACSTUDY
offers conventional consulting practices to complete specific projects catered to your development plan

The FRACMOD team is focused on hydraulic fracture modeling, reservoir characterization and reservoir simulation

DELIVERING VALUE THROUGH TWO PRIMARY LEVERS

VALUE PROPOSITION

1 Cost Reduction

- Design for savings
- Optimize time to reduce costs

2 Increase Revenue

- Leverage technology
- Design for increased EUR

\$ cost/boe
